PROFILE

I am an enthusiastic and skilled student with a solid foundation in web development, software application development, and database management. I have hands-on experience with technologies such as HTML, PHP, CSS, JavaScript, and Java, acquired through various university projects.

EDUCATION

**Following a BEng
(Hons) in Software
Engineering**
**IIC University of Technology,
Cambodia**

Expected Graduation
Date: December/2026

SKILLS

- Web Development: HTML, CSS, JavaScript, PHP
- Software Development: Java, OOPC, OOSAD
- Database Management: SQL, Database Design, Data Integrity
- Front-End Development: Responsive Design, User Interface (UI) Design
- Back-End Development: Server-Side Scripting, API Development

UNIVERSITY PROJECTS

2D Game Development

Developed a 2D game using HTML and CSS, focusing on creating an engaging user interface and smooth gameplay experience. Implemented interactive elements and responsive design to ensure the game runs well on various devices and screen sizes.

E-Commerce Web Application Development

Designed and developed a fully functional e-commerce web application using HTML, CSS, JavaScript, and PHP. Integrated a database to manage product inventory, user authentication, and order processing.

Arduino Obstacle-Avoiding Car Project

Built an Arduino-based obstacle-avoiding car using ultrasonic sensors. Programmed the microcontroller to detect obstacles and adjust the car's movement accordingly. This project showcased skills in embedded systems, sensor integration, and real-time problem-solving.
